

What is user account in microsoft entra ID

A **user account in Microsoft Entra ID** is a **digital identity** that represents a person (or sometimes a service) within an organization's cloud environment.

In simple terms:

It's what allows someone to **sign in and access resources** like:

- Microsoft 365 (Outlook, Teams, SharePoint)
- Azure services
- Company apps and systems

What a user account includes

A typical Entra ID user account has:

- **Username (UPN)** → e.g. user@company.com
- **Password / authentication methods** (MFA, biometrics, etc.)
- **Profile info** → name, job title, department
- **Permissions & roles** → what the user is allowed to access
- **Group memberships** → used to assign access to apps/reso

What it's used for

- **Authentication** → proving who you are (login)
- **Authorization** → controlling what you can access
- **Single Sign-On (SSO)** → one login for multiple apps

Types of accounts

- **Member users** → employees in the organization
- **Guest users** → external users (e.g., partners) invited to access resources

How to create single user and multi user in Entra id

Method 1: Using the Entra Admin Center (most common)

1. Go to the **Entra Admin Center**
 <https://entra.microsoft.com>
2. Sign in with an **admin account**

3. In the left menu:
 - Click **Users**
 - Then click **+ New user**
4. Choose:
 - **Create new user**
5. Fill in the details:
 - **User name (UPN)** → e.g. john@yourcompany.com
 - **Name** → John Smith
 - **Password** → auto-generate or create manually
 - Option to require password change at first login
6. (Optional but recommended):
 - Assign **Groups**
 - Assign **Roles** (e.g., User, Admin roles)
 - Add job info (department, title)
7. Click **Create**

After creating the user

You usually also:

- Assign **licenses** (Microsoft 365, etc.)
- Configure **MFA (Multi-Factor Authentication)**
- Add to **groups** for access to apps/resources

Permissions required

To create users, you need:

- **User Administrator** or
- **Global Administrator** role

Setting up Entra ID account

This username is what you'll use to sign in each time you use your apps. The domain name is a suggestion. You can change your domain now, or later at any time with your own custom domain.

Creating user

The screenshot shows the Microsoft Entra admin center interface. The left sidebar contains navigation links: Dashboard, Applications, Connect, Secure, Monitor, Settings, Third Party Security Solutions, What's new, Billing, Security Store, Diagnose & solve problems, and New support request. The main content area shows the 'Users' section for the 'Debo' organization. A dropdown menu is open under the '+ New user' button, showing two options: 'Create new user' (with a sub-option 'Create a new internal user in your organization') and 'Invite external user' (with a sub-option 'Invite an external user to collaborate with your organization'). Below the dropdown, a table lists existing users. The table has columns for 'User principal name', 'User type', and 'Is Agent'. One user is listed: 'Adebowale Adewuyi' with a user principal name of 'AdebowaleSunda...' and a user type of 'Member'. The bottom of the screen shows a Windows taskbar with various application icons and a system tray with the date '26/04/2026' and time '21:09'.

User principal name	User type	Is Agent
AdebowaleSunda...	Member	No

[Review + create](#) [Previous](#) [Next: Properties](#)

Unchecking the Autogenerate password would allow us to create our own password.

Also, uncheck the 'Define from user principal name' so that principal name would not be automatically assigned to nick name .

Bulk create users

If you need multiple users:

- Go to **Users** → **Bulk operations** → **Bulk create**
- Upload a CSV file with user details

The screenshot shows the Microsoft Entra admin center interface. The left sidebar contains navigation links for Home, Entra agents, Favorites, Entra ID, Overview, Users, Groups, Devices, Agent ID (Preview), Enterprise apps, App registrations, Roles & admins, Delegated admin partners, Tenant governance (Preview), Domain services, Conditional Access, Multifactor authentication, Identity Secure Score, and Authentication methods. The main content area is titled 'Users' and includes a search bar and a list of users. A red box highlights the 'Bulk operations' dropdown menu. Below the menu, a table lists two users: Adebawale Adewuyi and Vivian Linda. On the right side, a sidebar contains a message about authentication issues and a form for bulk import users, which includes steps for downloading a CSV template, editing it, and uploading it.
